

About the Collection

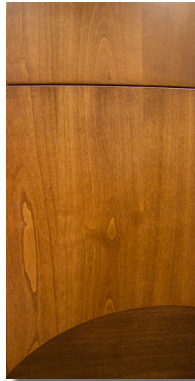

Continuing with our tradition of using resources responsibly and creating timeless cabinetry, we are proud to present the “Naturally Northwest” collection. “Farm to fork” menus offer fresh, local and sustainably harvested food. We use a similar approach. We source material for our cabinetry within a 500-mile radius of our plant. We also use earth-friendly materials that have no added formaldehyde and use low VOC finishes.

The rustic beauty of Central Oregon provides the inspiration for this Northwest line. The door styles and finishes naturally accent and highlight the woods’ unique beauty. The collection offers discerning homeowners a chance to create a truly original look.
