

About the Collection:

Neil Kelly Cabinets' American Craftsman Collection is just right for many Northwest homes built during the first part of the 20th Century. These cabinets are also a beautiful compliment to the contemporary Northwest Style that has a "Frank Lloyd Wright" feel.

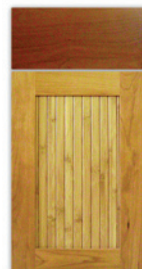

Our ¾" precision-built base is "frameless" in the European style. Our standard interior is made with a cabinet exterior grade of white melamine. This thermally-bonded melamine is laminated on both sides to a special No Added Urea Formaldehyde (NAUF) agri-board core. An optional maple NAUF plywood interior is available as well as NAUF MDF.

The standard drawer offering for all of our collections is the "EnDura" drawer. A 1/2" thick, all NAUF melamine drawer incorporates an under-mounted drawer guide system with ¾" extension and 75 pound capacity. Also available as options are the "Builder," "Deluxe," or "Dovetail" drawers. Each features distinctive materials and hardware upgrades, and all carry the drawer guide manufacturer's warranty.

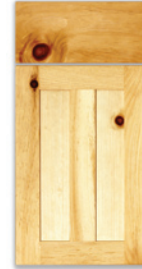

See page 2 for wood species and finishes.

#431 Craftsman
Shown in Lyptus w/
American Cherry Finish

#435 Shik
w/ Carmel Bamboo
insert Shown in Cherry
